

## Firmware Release Note

Model Name : EDIMAX PRO CAP300

Release : [2021/09/27]

Version 2.3.0.9

NMS Version:1.3.2.0

New:

Fixed Bugs:

1. SMB-1811 : (NMS) [Radius Account] Import wrong format csv file, it will cause two issue
2. [SN-75][Site][Settings][Advanced][Device Login] After you changing HTTP or HTTPS port number for managed AP, then you can access the managed AP without login/pwd.
3. [SN-74][Site][Dashboard] The number is not correct on "Active Users" and "Active clients".
